10 FAVORITE BRAIN FOODS

Credit: Jim Kwik

1. AVOCADO

- Helps keep healthy blood flow Good source of monounsaturated fats

2. BLUEBERRIES (OR 'BRAINBERRIES!)

- Protects your brain from oxidative stress
- Reduces the effect of brain-aging conditions
- Rats who ate blueberries had improved overall learning capacity and motor skills and were mentally younger

3. BROCCOLI

- Remarkable source of fiber
- Rich in vitamin K, which is known to enhance cognitive function and improve brainpower

4. COCONUT OIL

- Medium chain fatty acid, which ignites your body's fat-burning furnaces to help create ketones

5. EGGS

- Full of memory-improving choline, Omega-3s, and vitamin E

10 FAVORITE BRAIN FOODS

6. GREEN LEAFY VEGETABLES

- Spinach, kale, collard greens
- Good sources of vitamin E and folate

7. SALMON

- Wild deepwater fish rich in Omega-3s and DHA
- Sardines are also good

8. TURMERIC

- Reduces inflammation and helps boost antioxidant levels
- Keeps your immune system healthy
- Improves brain's oxygen intake to you alert and able to process information
- Recipe: I start my days with turmeric tea. I combine turmeric, pepper (to absorb the turmeric better), honey, coconut oil, and hot water.

9. WALNUTS

- High levels of antioxidants and zinc
- Rich in vitamin E, which protects your neurons
- Wards off brain-aging conditions
- Lots of magnesium, which improves your mood and thus your brain

10. DARK CHOCOLATE

- Improves your focus, concentration, and mood
- Stimulates endorphins
- Generally, the darker the chocolate, the purer and better for your brain

10 FAVORITE BRAIN FOODS

BONUS 11. WATER

- Your brain and body are about 75% water
- Several studies show that well-hydrated people score better on brainpower tests
